Overview STINT Internationalisation Index

Kristianstad University

**Research: Field-weighted internationalisation score**

**Share of mobile students**

**Share of int’l PhD students**

**Share of education in English**

**Share of faculty with research abroad**

**Share of faculty with PhD from abroad**
Comments to the index

Total index is a weighted sum of all six dimensions:

- **40%** Research: International co-publications
- **20%** Mobile students
- **8%** Int'l PhD students
- **12%** Education in English
- **15%** Faculty with int'l academic experiences
- **5%** Leadership with int'l academic experiences

**Research**: The field-weighted internationalisation score compares the share of international co-publications with other publications in the same scientific field, published the same year in the same type of publication. Global average is always 1,00

**Mobile students**: Incoming as well as outgoing. The latter only within exchange programmes. Data from UKÄ

**PhD students**: International PhD students at Swedish HEIs. Data from UKÄ,

**Education in English**: Credits given in English compared to all credits given in programmes and courses. Data from the database behind universityadmissions.se

**Share of faculty with research abroad**: Should have at least one publication with a foreign affiliation. Data from Elsevier, based on Scopus publications.

**Share of faculty with PhD from abroad**: Data from SCB.

**Leadership with international academic experiences**: Same as for faculty but only for the vice chancellor and the pro-vice chancellor(s). Data is not presented in this overview.
