## Grants for Teaching Sabbaticals

The purpose of Grants for Teaching Sabbaticals is to develop Swedish higher education. By giving Swedish researchers and university lecturers, who are passionate about education, international experiences relevant to their teaching role, STINT wants to contribute to educational renewal and the creation of new networks.

Selected participants will teach at the foreign higher education institution (HEI). By participating in the planning and implementation of teaching, the task is to gain an understanding of learning and teaching policies and how these institutions implement and develop learning and teaching processes, as well as address educational quality standards.

The participants' experiences will then assist the development of Swedish faculties and universities. There is great emphasis on involving the university leadership and how the universities will use returning lecturers' experiences in various ways towards positive dissemination impacts. Continuing relationships between Swedish and foreign institutions are welcomed.

- Contribution to the Swedish HEI for the hiring of a substitute lecturer during the participant’s absence. Max SEK 50,000 per month. ## Project implementation and final report
